

Scrofula

Is very often acquired, though generally inherited. Bad hygiene, foul air, impure water, are among its causes. It is called "the soil for tuberculosis," and where it is allowed to remain tuberculous or consumption is pretty sure to take root. Hood's Sarsaparilla Removes every trace of scrofula. Get Hood's.

For testimonials of remarkable cures send for Book on Scrofula, No. 1. C. L. Hood Co., Lowell, Mass.

MARIANNA

Special to The Journal.

Marianna, Nov. 2.—The Young Men's prayer meeting held at the Presbyterian church Sunday afternoon and led by Mr. Chester N. Horne, was a success in more than one way. Chester has the compliments of each one present as this was the first service he has conducted. The next service will be held at the Baptist church Sunday afternoon at three o'clock.

Mrs. L. Wiseloge and Mrs. Mary O'Hearn went to Chipley Sunday night to visit friends. They returned today.

Mr. J. D. Smith left for New York Sunday night.

Work on the new Carter building is progressing rapidly and we believe the building will be finished on contract time.

Messrs. Calloway and Stephens have sold out their restaurant.

Work will begin as soon as court is over on the new court house. All the material, we understand, will be on the ground before a single brick of the old shack is loosened.

Farmers are beginning to rub up their kettles and repair their sugar furnaces herabouts. It won't be long before nearly every night some gay party of young people will be merry around the "cane mill," of some of our fun-loving tillers of the soil.

Mr. D. L. McKinnon has a complete new outfit consisting of a new horse, new harness and new road cart, but the genial old "Colonel" is the only thing that looks natural.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

The Ancient Calendar.

In times past the Jewish year had two commencements. The religious year began with the month of Abib (April) and the civil year with Tissi (October). The year was a solar one, and but two seasons were reckoned—summer and winter. The months were lunar, twelve in number, each of thirty days. This was the case with the average year, but occasionally a thirteenth month was necessarily intercalated.

This thirteenth month was called "Yediar." Several of the ancient nations—the Egyptians, Chaldeans, Persians and Phoenicians in particular—began their year at the time of the autumnal equinox, about Sept. 22.

The beginning of the year among the Greeks until about the year 432 B. C., when Menton introduced the cycle called after him, was at the time of the winter solstice, or about Dec. 22, and afterward at the time of the summer solstice, June 22. In England from the fourteenth century until the change from "old style" to "new style," in 1752, the legal and ecclesiastical year began with March 25.

"I suppose," said the physician to the scoffer, "that you would throw physics to the dogs?"

"Not good dogs," the other returned gravely.

Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the well-known fact that American women are nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly," or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman.

Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night."

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me."

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

BEULAH

Special to The Journal.

Beulah, Nov. 2.—I was down to the quarantine line yesterday and everything was lively. There were fish peddlers, charcoal men, wood haulers—even Beulah farmers—were there with their little loads of truck. Everything in the way of farm produce sells well and at satisfactory prices, and eventually the quarantine may be the means of securing a general market for Pensacola as suggested by your Brent correspondent. The suggestion is a good one and I believe if brought to the attention of the Mayor and council in the right manner it would be favorably acted upon.

Mr. Frank Wilson has gone to Baldwin county, Ala., where he has secured employment.

Mrs. C. B. Busby was in Pensacola yesterday to consult a physician. She has not enjoyed good health for some time.

Mr. Thos. Busby, of East Bay arrived last week to make his brother, Mr. A. J. Busby an extended visit.

Mr. James Campbell and family of Myrtle Grove accompanied by Miss Belle Rupert, were guests of John Methis and family last Sunday.

Mrs. Maggie Hirst, of the bay made her mother, Mrs. A. Waters and family a short visit Sunday evening.

Mrs. Lizzy Dunaway met with an accident Sunday that might have proved serious but she only received a few bruises and a bad scare. The horse she was driving turned suddenly and threw her out of the buggy.

Mrs. Annie Bowman is feeling rather sore over the inroads that the sore eyes and the cane stripping along with the fever scare are making in the attendance of her school.

I am requested to announce that the little Cushion baby at Fishers, has been very sick for the past seven weeks and for the last two weeks it has not been expected to live. At present it is getting better, and we all sincerely hope little Joshua will soon recover.

The Misses Ard, of Bellview, who were guests of John Lester and family part of last week, returned home last Saturday accompanied by their friends the Misses Louisa and Lizzie Lester and Mrs. Sallie Wright, of Beulah.

There will be preaching at the M. E. church next Sunday immediately after Sunday school, by Rex Garrett.

DeFUNIAK

Special to The Journal.

De Funiak, Nov. 2.—Quite a large crowd was present at the opening of the Gulf Coast Fair yesterday.

Mr. Homer Brown left last night to look after the interests of his firm, The Gordon Brown Hardware Co., which suffered heavy loss in the fire.

Mr. F. N. Ringley, W. C. Norman's traveling man is circulating among his many friends here.

Al Hodgeboom of The Pensacola Journal is very much in evidence.

Mr. Milton Beasley and Miss Missouri Hathaway were quietly married by Hon. L. N. Erwin. The young couple have the best wishes of all their many friends.

Mr. Carl Satterlin the genial proprietor of the Chipley Hotel is a visitor in De Funiak. Mr. Satterlin has some very fine blooded Berkshire hogs on exhibition.

Currency is Tough.

That Uncle Sam's notes stand a great deal of rough and careless handling is a fact that impresses itself upon any one who has ever chanced to note the manner in which the average cashier pulls and jerks the bills before he pushes them through the window to the waiting patron.

A single treasury note measures three and one-eighth inches in width by seven and a quarter inches in length. It will sustain without breaking lengthwise a weight of forty-one pounds, crosswise a weight of ninety-one pounds. The notes run four to a sheet, a sheet being eight and a quarter inches wide by thirteen and a half inches long. One of these sheets lengthwise will suspend 108 pounds and crosswise 177 pounds.

It will be observed that a single note is capable of sustaining crosswise a weight of ninety-one pounds, which is twice the amount by nine pounds of the weight the note can sustain lengthwise, while in the case of the sheet the crosswise sheet sustains thirty-nine pounds of double the sustaining power of the lengthwise sheet.—Philadelphia Record.

Aaron Burr as a Baby.

As early as 1756, when Burr was a baby of only thirteen months, his own mother wrote this significant description of him: "Aaron is a little dirty, noisy boy. He begins to talk a little, is very sly and mischievous. He has more sprightliness than Sally, his sister, and most say he is handsome, but not so good tempered. He is very resolute and requires a good governor to bring him to terms." That very good governor, his father, who might have made such a difference in the life of the lad, was only a few months later taken out of the world. His mother also soon died.

However, despite all that has been written of the man's shortcomings, there was in his heart space for a very beautiful devotion to his daughter Theodosia. No more exquisite family letters may be found anywhere than those which passed between the two.

MORAL:

A dollar well spent is better than fifty cents badly saved. Our hot water bottles are made by a reliable firm, and are worth the price we ask because they last and won't leak. Every bottle guaranteed perfect. Prices \$1.00, \$1.25 and \$1.50, depending on size. Don't be like the man in the story.

The Journal's Daily Fashion Feature

THE EMPIRE MODE FOR THE SCHOOLGIRL.

The separate wrap is contending with the coat and skirt suit for supremacy this winter; but there is no doubt that for school purposes a coat that shall be heavy and warm enough to withstand winter weather is a far better selection. In the pattern pictured, the yoke is so cut that it extends in an unbroken line down the centre back and front, strappings in-

dicating the points where the full pleated sides are joined to the yoke. The sides are of a circular cut, the fan pleats thoroughly pressed throughout, and describing quite a flaring line from the chest to the hem. A round shawl collar of the goods is piped with velvet, as is also the upstanding cuff. The fastening is double-breasted, with handsome buttons.
